U.S. Presidential Candidate - Robert Frances "Beto" O'Rourke

This is part of a series of in-depth analysis into the U.S. presidential candidates who think they should be in charge of the most powerful nation in the world.

Robert Frances "Beto" O'Rourke, born September 26, 1972 - Some known background

Beto O'Rourke graduated from High School in El Paso, Texas, and went on to get a BA degree from Columbia University in English literature and speaks Spanish fluently.

On **May 19, 1995** he with some friends snuck into the University of Texas at El Paso and was arrested by police for burglary. He posted bail and was released the next day. For some reason UTEP decided not to press charges.

While at Columbia University Beto made some extra pocket money playing with his punk band "Foss".

Beto belonged to one of the oldest group of computer hackers in the US while a teenager; and there are questions how many laws he might have broken.

Beto belonged to the influential "Cult of the Dead Cow" and during that time wrote some very obscene articles about murder fantasy and driving over children on the street.

Beto is one of the richest US Representative out of the 435 members with wealth about 9 million. But you must be saying how is that possible from what I've read. His wife Amy's father (William Sanders) is a billionaire real estate investor in El Paso.

Does his past have anything to do with his future or his character? Is Beto sending the correct message to our young people "it does not matter the choices you make in life". Do you think Beto past make a difference? He is running for the highest office in the land and will be in charge of **making decisions about your life.**

So what does this man have in his chart. The following are NOT my interpretation, nor my gut feelings about Beto, they are influences that affect all human beings and have already been documented in the Kerry Theory Manual under the glossary of definitions.

Beto was born during the time frame when two heavy planets were "negative" to each other producing disagreement with contemporary forms of religion, government laws, education, or one's viewpoint or way of thinking. This is true of an entire generation but some will be more affected than others due to inner natal planets connecting to this alignment.

On the QUAD side of Beto's chart:

Jupiter "negative" Pluto produces disagreement with contemporary forms of religion, government laws, education, or one's viewpoint or way of thinking.

Beto's **Sun is 90-degrees Jupiter** magnifies all situations and allows them to get out of hand. Beto's **Mars 90-degrees Jupiter** creates overly destructive physical influences that cause misfortune.

Theses trait do not disappear they resurface from time to time during a person's life. This aspect of course explains that Beto wants no borders. Once you have no borders you have no culture left; the values, principals and beliefs of the US will be modified or changed. This does not show love of country but it does show the Jupiter "negative" Pluto alignment. Beto O'Rourke is best known for his support of legalizing marijuana he says it will cause less gang violence.

The Moon in a person's chart is a good indicates of your personality. In Beto's chart the **Moon "negative" Venus** makes one's personal interests more important and self-serving, with a tendency to be laid-back and easy going,

On the TRIP side of Beto's chart it shows:

Heavy planets are indicators of large sections of time that affect millions of individuals. Beto O"Rourke was born when Saturn was 120-degrees Uranus, but Beto has no inner planets connections with this natal complex, which means he will not follow this path.

Beto was born with his natal Mars 120-degrees natal North Node

Mars "positive' North Node is probably the best aspect when it comes to firing up the spirit to accomplish; a physical charisma that is attractive to others.

On Election day, November 3, 2020, the very first thing you notice is that transiting Mercury is "negative" to both transiting **Jupiter and Pluto**!

Mercury "negative" Jupiter indicates the thinking processes are flawed, or overwhelmed with hopelessness.

Mercury "negative" Pluto causes an individual to lose control of events or situations because the thinking processes are compromised, or a situation not anticipated, or extreme mental distress.

Transiting Sun 180-degrees transiting Uranus will operate for Beto because of SIGN agreement. Natal Uranus in the same SIGN as natal Pluto and transiting Mercury in the same SIGN as transiting Sun (TIP1). **Beto better stay off his skateboard on this day!**

Moon "negative" Uranus rules emotional outbursts, or quick and sudden changes not anticipated or desired.

Think of the millions of dollars wasted on candidates that have no chance of winning. It seems in this day and age, we should begin selecting our Presidential candidates which can produce the very best ideas, laws, new concepts that will make our country even better.

How could Beto O'Rourke win the Election with this chart? Impossible. This chart has been studied a year and half before the Election in 2020, on March 28, 2019.
