

## Steve Bannon October 21, 2022, Contempt of Congress - Forecast

**Who is Steve Bannon?** He was born November 27, 1953, and served as the White House chief political strategist during the Presidency of Donald Trump. He served his country for seven years in the military and worked as an investment banker. He produced over 18 films in Hollywood and the co-founder of Breitbart News. Some of you, will remember back in November of 2020 his Twitter account was suspended after he wrote Anthony Fauci, the government disease expert, should be executed.

Steve Bannon refused to comply with a subpoena issued by the United States House Select Committee in October 2021, after the January 6 attack on the US Capitol. **He was indicted by a grand jury today, July 22, 2022 on two criminal charges of contempt of Congress.** This is what he had below for today; however, this is now the past and we are looking to future predictions, so I will only write what the aspects caused below.

**Natal Uranus Cancer, natal South Node Cancer, present transiting Uranus 180-degrees "negative" transiting South Node.** When Uranus energy is "negative", is undependable, unsafe actions, unexpected events or outcomes. **Natal Saturn Scorpio, transiting South Node Scorpio, present South Node 90-degrees transiting Saturn.** Difficulties, frustration, stress and very downbeat and unhappy.

Steve Bannon was born with a high degree of skill when it comes to planning actions, the real meaning of the word strategist. He was born with "an edge" over the rest of us; both Mars and Neptune are 120-degrees Jupiter. Planning strategy is easy because he has good insight and senses. The very best generals in our military need this element in order to develop and plan strategy and win wars. But like everything in life, nothing stays the same; **the planets move on.**

**His sentencing will be October 21, 2022 at 3:00pm (coming in the future).**

The "Kerry Theory" explains planets in the same SIGN only need direction for the energy to flow and they get this by the 120-degrees "positive" aspect or the 90 or 180-degrees "negative" aspects; being in the same SIGN is just like wiring that needs a connection. Mars **Libra**, Neptune **Libra** same sign waiting for direction (see below). On the October 21st transiting Mars will be 90-degrees "negative" to Neptune; this always creates physical actions of some kind that pose a threat; and most of the time you don't see it coming.

**How serious?** Steve Bannon was born with his natal **Neptune 90-degrees his natal South Node**. A clear indication this is serious and not to take lightly (see below).

On October 21 (see below) transiting Jupiter **Pisces/Aries** is sharing the same SIGN as transiting Neptune **Pisces** waiting of direction, which now comes from transiting Neptune 90-degrees natal Jupiter.

This alignment causes unstable and unreliable conditions. Where a person says to themselves “I cannot believe this is happening to me”. Your logic and instincts have misled you, and the unbelievable happens.

**Will the court system go lightly on Steve Bannon and give him only the minimum sentence of 30 days in jail, or the full extent of the law and 2 years in prison?**

His chart above could have been drawn up months or years in advance. Back in 2021, when he refused the subpoena transiting Neptune was 20.84 **or just within the 3.5-degrees allowed for an aspect to begin to operate** “negative” to his natal Jupiter. If he could only have seen it coming, maybe he could have taken a different tack. I would not be surprised if the court gives him the maximum penalty. Of course, the attorneys will appeal; let’s just hope they look at the Kerry Theory first to give them an idea if they will win or lose.
